Attorneys for Plaintiff EVOX PRODUCTIONS LLC

UNITED STATES DISTRICT COURT

CENTRAL DISTRICT OF CALIFORNIA

EVOX PRODUCTIONS LLC, a Delaware limited liability company,

Plaintiff,

v.

BYTEDANCE INC., a Delaware limited liability company; BYTEDANCE LTD, a Cayman Islands Company; and DOES 1-10,

Defendants.

CASE NO.

COMPLAINT FOR:

(1) DIRECT COPYRIGHT INFRINGEMENT – 17 U.S.C. §§ 106, 501, *et seq.*;

(2) CONTRIBUTORY INFRINGEMENT - 17 U.S.C. § 501, *et seq.*

CALLAHAN & BLAINE, PC

Plaintiff EVOX Productions LLC ("**Plaintiff**" or "**EVOX**") brings this complaint against BYTEDANCE INC., a Delaware limited liability company, BYTEDANCE LTD, a Cayman Islands Company (collectively, "**BYTEDANCE**"), and DOES 1-10 (together with BYTEDANCE, "**Defendants**"), and alleges as follows:

JURISDICTION AND VENUE

Subject Matter Jurisdiction

1. This Court has subject matter jurisdiction over the copyright claim pursuant to 17 U.S.C. Section 501, *et seq*., and 28 U.S.C. Sections 1331 and 1338(a).

Personal Jurisdiction

2. This Court may exercise personal jurisdiction over BYTEDANCE INC because it is headquartered in California, where it maintains its principal place of business. It conducts substantial business operations throughout California.

3. This Court may exercise personal jurisdiction over BYTEDANCE LTD because it maintains offices in California. It also conducts substantial business operations throughout California.

4. This Court's exercise of jurisdiction over BYTEDANCE INC and BYTEDANCE LTD is reasonable, especially because both entities have already been named defendants in other litigation currently pending in the Central District of California. This includes *United States v. Bytedance Ltd.*, 2:24-cv-06535 (C.D. Cal.).

5. BYTEDANCE LTD has alleged in federal litigation that it is a "global company incorporated in the Cayman Islands, with offices in the United States." *TikTok Inc. and ByteDance Ltd. v. Donald J. Trump and Wilbur L. Ross, Jr.*, No. 20-cv-2658, (U.S. District Court for the District of Columbia). EVOX is informed and believes that BYTEDANCE LTD maintains one of those offices in San Jose, California, and conducts business operations there.

CALLAHAN & BLAINE, PC

IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

6. Further, EVOX is informed and believes that non-party TicTok, Inc. ("TicTok") is another entity which falls within the subsidiary chain of BYTEDANCE LTD. EVOX is also informed and believes that TicTok maintains a global headquarters in Los Angeles County.

Venue

7. Venue is proper in this Court under 28 U.S.C. § 1391(b)(2) because a substantial part of the events or omissions giving rise to the claims alleged herein occurred in this District.

8. Venue is also proper in this Court under 28 U.S.C. § 1400(a) because BYTEDANCE INC and BYTEDANCE LTD would be amenable to personal jurisdiction if this District were a separate state.

9. Specifically, BYTEDANCE INC and BYTEDANCE LTD are alleged to have infringed EVOX's copyrighted images. The images at issue were created by EVOX in Los Angeles County, which is in the Central District of California.

10. EVOX was once headquartered in Los Angeles County, but is now headquartered in San Bernardino County. The resulting effects and economic harm are flowing to EVOX in its home district. EVOX's claims therefore arise out of conduct by BYTEDANCE INC and BYTEDANCE LTD that was directed at the Central District of California.

PARTIES

11. EVOX is a Delaware limited liability company with its principal place of business in Chino, California.

12. BYTEDANCE LTD. is a Cayman Islands Company, with substantial business operations in the State of California.

13. BYTEDANCE INC. is a corporation organized under the laws of Delaware, and registered to do business in the State of California.

14. EVOX is informed and believes that BYTEDANCE LTD. is the corporate parent of BYTEDANCE INC., and that they share the same ownership

CALLAHAN & BLAINE, PC

and control. At this stage of the proceedings, EVOX cannot discern which of the defendants engaged in which elements of the alleged conduct, but is informed and believes that they both contributed to the conduct giving rise to liability. They are collectively referred to herein as "BYTEDANCE."

15. The true names and capacities of Defendants named herein as DOES 1 through 10 are unknown to EVOX, who therefore sues them by fictitious names. EVOX will amend this Complaint to allege the true names and capacities when ascertained.

16. Upon information and belief, in performing the acts or omissions described in this Complaint, BYTEDANCE and each of the DOE defendants were acting as the principal, representative, agent, employee or alter ego of each other, and were acting within the scope of such agency or employment to commit the acts alleged herein. Each defendant sued herein aided and abetted the other with the intent that each would be successful in their mutual endeavors. Each defendant contributed to EVOX's damages and the statutory violations alleged herein.

NATURE OF THE ACTION

17. EVOX has been a pioneer in the industry of automobile photography for over 30 years. During that time, it has created and meticulously catalogued the highest quality still images, interactive images, and videos of several thousand vehicle makes and models.

18. EVOX licenses its library of images to a variety of entities in the automobile industry. In addition, each of EVOX's copyrighted images can be individually licensed on EvoxStock.com, a website that is owned by EXStock, LLC, an affiliate of EVOX.

19. Given the creative elements of these works – and the considerable resources invested to produce them – each EVOX image is a valuable intellectual property asset with independent economic value. Accordingly, EVOX protects each image in its library with copyright registration.

20. On or around April 10, 2026, EVOX discovered that BYTEDANCE had infringed EVOX's copyrights by appropriating thousands of EVOX's images without license or authorization. Specifically, EVOX learned that BYTEDANCE wrongfully downloaded over 7,000 of EVOX's copyrighted images from EvoxStock.com.

21. EVOX is informed and believes that BYTEDANCE used these images to train a computer program referred to generically as an "image generator." BYTEDANCE's image generator is capable of generating images based upon text prompts written by users of the platform.

22. EVOX has learned that BYTDANCE's image generator – which it refers to as "Seedream" – is generating images so substantially similar to the EVOX images that they are now destroying the market for the originals.

23. EVOX brings this action to protect its intellectual property rights, and to preserve its valuable licensing business from the misappropriation of its copyrighted images by BYTEDANCE.

SPECIFIC ALLEGATIONS

EVOX Develops a Comprehensive Library of Images That Are Each Protected By A Unique Copyright Registration

24. Over 30 years ago, EVOX began developing a library of high-quality copyrighted digital images ("**Images**") for virtually every passenger vehicle commercially available. Each year, it adds Images of approximately 500 new vehicles – representing all newly released makes, models, and trims.

25. EVOX's photography team has labored to create a comprehensive set of interior, exterior, and interactive Images for each of the vehicles in its library.

26. Over the years, EVOX has refined its photography techniques to such a degree that its Images are widely regarded as the highest-quality digital automotive images in the industry. EVOX Images are regularly licensed individually, and the license for each image can exceed $1,300.

27. Given their independent economic value, EVOX protects its intellectual property rights by securing Certificates of Copyright Registration from the Register of Copyrights for each individual Image.

28. Today, EVOX owns and controls the copyrights to over two million digital photographs under the United States Copyright laws, and has obtained Certificates of Copyright Registration from the Register of Copyrights for over one million of these works. Each copyright registration includes multiple photographs, each with their own title, for a specific vehicle.

The Creation of Each of EVOX's Copyrighted Images Requires Several Independent Creative Decisions

29. EVOX has dedicated a substantial amount of resources and artistic effort in order to create a library composed of individual Images that capture the essence of the subject (*e.g.*, multiple makes, models, trims, and colors of vehicles) in a manner that is distinct in the vehicle photography industry.

30. Photographing vehicles poses unique challenges that EVOX has solved through its creative decisions. Each Image is a distinct EVOX composition, reflecting multiple protected expressive choices.

31. For instance, when a vehicle is photographed the resulting image will also contain a reflection of the vehicle's surroundings due to its highly polished surface.

32. In addition, vehicles photographed outdoors necessarily capture unwanted reflections and lighting that both distract and detract from the underlying photo. EVOX has addressed these issues by using a specially designed photography studio and advanced editing techniques.

33. In order to mitigate reflections, EVOX has traditionally shot its Images in a photography studio specifically designed and built for vehicle photography. The studio features a white-walled cyclorama—with curved walls and no visible edges—to create the illusion of an endless background. In front of the cyclorama sits a large,

CALLAHAN & BLAINE, PC

FAX: (714) 241-4445

motorized turntable on which vehicles can be driven and precisely centered using a laser-based procedure.

34. The turntable has gray walls shaped to simulate the horizon line, allowing for soft gray reflections and brighter highlights above them on the vehicle's side panels, helping define the vehicle's shape in photos without any color contamination. However, in recent years EVOX photographers have photographed vehicles on location and the "studio" effect is further enhanced with photo-realistic, human-directed, computer-assisted editing techniques.

35. The Images reflect the product of numerous deliberate and carefully considered creative decisions made by EVOX's photographers and production team. These creative decisions include, among others:

a. The composition and framing of the vehicle, including the precise positioning and angle of the vehicle on the turntable;

b. The degree to which the vehicle's wheels are turned;

c. The selection of camera lens, focal length, and focus;

d. The distance of the vehicle from the camera;

e. The height of the camera relative to the vehicle at the top of the vehicle's wheel wells;

f. The use, color, and position of overhead lighting;

g. The placement of the vehicle against the white cyclorama background;

h. The creation of soft-edge drop shadows underneath the vehicle;

i. The lack of any noticeable reflection on the windshield and side windows to allow the interior of the vehicle to stand out;

j. The position and brightness of the sheen on the vehicle's black rubber tires based on the positioning of the vehicle and the white cyclorama; and

k. The use of gray walls around the turntable that are shaped to

CALLAHAN & BLAINE, PC

FAX: (714) 241-4445

simulate a horizon line to create soft gray reflections and brighter highlights on the vehicle's side panels to define its shape without adding color contamination.

36. The product of the combination, selection, and arrangement of these protectable expressive choices defines each and every Image that is immediately recognizable as distinctively EVOX's. It is therefore unsurprising that EVOX has become renowned for the quality of its Images and the breadth of its Image library.

BYTEDANCE Reproduces, Exploits, and Distributes EVOX's Copyrighted Images Without License or Authorization

37. EVOX routinely monitors and investigates the unauthorized use of its Images in order to protect the value of its Image licensing business.

38. On or about April 10, 2026, a review of EVOX's server logs revealed that BYTEDANCE had accessed the servers of EvoxStock.com without authorization, and wrongfully copied 7,095 of EVOX's Images without license. Attached as Exhibit A is a listing of those images with their corresponding copyright registration numbers.

39. EVOX is informed and believes that BYTEDANCE has copied EVOX's Images from other online sources without license or authorization.

BYTEDANCE Uses EVOX's Images to Develop its Image Generation Platform, Seedream

40. EVOX is informed and believes that BYTEDANCE has copied a massive number of images from sources across the internet in order to develop its image generation platform, Seedream.

41. BYTEDANCE created Seedream in order to gain market share in the highly-competitive market for image generators. Image generators, such as Seedream and others developed by BYTDANCE's competitors, create images when users of the platform enter a text description in a user interface.

42. Although the manner in which image generators are developed is

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

highly technical and complex, the process relies heavily upon "training" the programs with large datasets comprised of millions – and even *billions* – of unique images.

43. These images are coupled with textual descriptions of the image content. The resulting combination is referred to as a "text-image pair."

44. After reviewing a massive volume of text-image pairs, the program upon which the image generator is built becomes better at identifying relationships between the text and the image.

45. It is widely understood that the quality of the image generator (*i.e.*, its ability to generate realistic images based upon a user's textual description) is dependent, at least in part, on the size of the image dataset used to train it.

46. Thus, EVOX believes that BYTEDANCE copied Images from EvoxStock.com in order to increase the size of the image dataset it used to train Seedream.

47. Public statements that BYTEDANCE has made about the development of Seedream would appear to confirm this belief. For instance, BYTEDANCE's online description of Seedream 4.0 explains that the developers used "HTML-based data retrieval" to construct "high-quality editing data pairs."

48. The term "HTML-based data retrieval" appears to reference the online collection of data – although BYTEDANCE is careful not to explain that image data was harvested from online sources without authorization.

49. BYTDANCE's reference to "data pair" appears to be synonymous with a text-image pair – the combination of an image with text describing that image.

50. Accordingly, BYTEDANCE has apparently admitted that it scoured sources from across the internet – including the servers of EvoxStock.com – to build the size of the dataset used to train Seedream.

51. In so doing, however, BYTEDANCE has entirely disregarded the intellectual property rights of EVOX and others.

Seedream Can Now Recreate the EVOX Images That Were Used to Train It

52. Although image generators are touted for their ability to create never-before-seen images based solely on text prompts, they are also capable of creating near-identical copies of the very images that were used to train them. The same is true of Seedream.

53. In order to investigate the ability of Seedream to recreate the protectable expressive elements of EVOX Images, EVOX conducted an analysis of the vehicle images created on the Seedream platform.

54. The resulting side-by-side comparisons speak for themselves. In each of the following examples, the image on the left is a copyrighted EVOX Image. The two images on the right, however, were generated by Seedream Model 4.5 using text prompts.

Sample 1: 2021 Audi Sportback Premium Plus

Sample 2: 2021 Audi TT Coupe

Sample 3: 2021 Chevrolet Silverado

55. As these examples demonstrate, Seedream generates images that are nearly identical to EVOX Images by mimicking the same protectable expressive elements that make EVOX Images unique in the industry.

56. For instance, the images generated by Seedream are capable of replicating some combination of the following:

a. The composition and framing of the vehicle, including the precise positioning and angle of the vehicle;

b. The degree to which the vehicle's wheels are turned;

c. The selection of camera lens, focal length, and focus;

d. The distance of the vehicle from the camera;

e. The height of the camera relative to the vehicle at the top of the vehicle's wheel wells;

f. The use, color, and position of overhead lighting;

g. The placement of the vehicle against a white cyclorama background;

h. A soft-edge drop shadow underneath the vehicle;

i. The lack of any noticeable reflection on the windshield and side windows to allow the interior of the vehicle to stand out;

j. The position and brightness of the sheen on the vehicle's black rubber tires based on the positioning of the vehicle and a white

TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

cyclorama; and

k. The simulation of a horizon line to create soft gray reflections and brighter highlights on the vehicle's side panels to define its shape without adding color contamination.

57. The propensity of Seedream to duplicate the expressive creative elements of EVOX's copyrighted Images over and over again is not an accident. EVOX is informed and believes that Seedream is specifically designed to produce image outputs that can replace the originals that were used to "train" it.

Seedream Constitutes a Derivative Work Within the Meaning of the Copyright Act

58. Not only was Seedream developed using EVOX Images, by itself it also constitutes a derivate work within the meaning of Section 101 of the Copyright Act.

59. Specifically, EVOX is informed and believes that during the process used to train Seedream and other image generators, the expressive elements that make the training images unique are reduced into machine-readable data.

60. This amalgam of data and related parameters are sometimes referred to as "weights." They become a fixed part of the image generation platform, and they are replicated wherever the program is ultimately stored.

61. The weights derived from the training images are integral to the generation of realistic images that effectively mimic the originals.

62. EVOX is informed and believes that the same is true of the Seedream platform. Accordingly, EVOX is further informed and believes that Seedream's inner workings are therefore based upon EVOX Images and constitute a derivative work.

The Vehicle Images That Seedream Generates Include Derivatives and Reproductions of EVOX's Copyrighted Works

63. Seedream is a work derivative of EVOX's copyrighted Images because

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

it has absorbed and integrated the protectible expressive elements of those Images during the training process.

64. For similar reasons, the Vehicle Images that Seedream generates are also derived from the protectible expressive elements of EVOX's copyrighted Images.

65. Indeed, EVOX is informed and believes that BYTEDANCE specifically used EVOX's copyrighted Images to develop the weights and parameters inherent to the Seedream model so that it could generate images that can serve as a substitute for the original.

66. In some cases, EVOX is informed and believes that Seedream generates vehicle images that are so substantially similar to EVOX's copyrighted Images that they are effectively reproductions.

Seedream is Destroying the Market for Images that EVOX has Created and Licensed for Decades

67. EVOX has invested approximately $56 million to create its library of Images over the three decades it has been in business. EVOX believes that the actual present market value of that investment based on current dollars would easily exceed that $56 million number by several multiples.

68. The value of EVOX's licensing business has justified this investment, and EVOX still generates millions of dollars per year in licensing revenue. But Seedream and other image generators now pose an existential threat to EVOX.

69. As illustrated in the examples above, potential licensees of EVOX Images no longer need to license those Images from EVOX. Instead, by entering a simple prompt into the Seedream platform, they can quickly recreate an image that appropriates all of the expressive creative elements that have made EVOX Images unique in the industry.

70. Thus, BYTEDANCE has wrongfully appropriated EVOX Images to train Seedream to replicate, and to create derivative works from, the very Images

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

used for training in the first instance. In so doing, they are destroying EVOX's business.

71. EVOX is informed and believes that by exploiting EVOX Images, Seedream can now replicate EVOX Images for a fraction of the cost that EVOX invested in the Images. Whereas EVOX has licensed its individual Images for a fee over $1,300 a year. BYTEDANCE can now replicate the same or substantially similar image for a few cents.

72. EVOX is informed and believes that this exploitation of EVOX Images is generating substantial profits for BYTEDANCE, which charges users a subscription fee to use the Seedream service.

Bytedance is Aware of the Negative Impact That Seedream Will Have on Copyright Owners Like EVOX

73. BYTEDANCE is apparently aware of the negative impact that image generators like Seedream can have on intellectual property rights. Just two months ago, in August 2026, BYTEDANCE announced a global agreement to protect intellectual property.

74. BYTEDANCE entered into the agreement with the Motion Picture Association. In a press release issued by BYTEDANCE's affiliate, TicTok, it explained that the intent of the agreement was "to maintain strong guardrails on generative AI video and image models like . . . Seedream . . . with the goal of protecting intellectual property."

75. Unfortunately, by using unlicensed copies of EVOX's copyrighted Images to develop Seedream, BYTEDANCE has exhibited a willingness to disregard the intellectual property rights of smaller copyright owners.

COUNT ONE

(Direct Copyright Infringement of Unlicensed EVOX Images – 17 U.S.C. §§ 106, 501, *et seq.*)

76. EVOX re-alleges the allegations in the preceding paragraphs as though

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

fully set forth herein.

77. Each of the Images at issue in this action is an original pictorial work and constitutes copyrightable subject matter pursuant to 17 U.S.C. §§ 101 and 102.

78. BYTEDANCE was not, and is not, licensed or otherwise authorized to reproduce, produce derivative works from, distribute, publicly display, or make available the Images in the manner alleged herein.

79. BYTEDANCE violated EVOX's exclusive rights protected by 17 U.S.C. § 106(1)–(3) and (5), including the exclusive right to reproduce its Images, prepare derivative works based upon those Images, distribute copies of those Images, and publicly display those Images.

80. First, BYTEDANCE copied EVOX's Images by downloading them from the servers associated with EVOX's individual licensing service, EvoxStock.com. At the very least, this necessarily infringed on EVOX's exclusive rights of reproduction.

81. Second, EVOX is informed and believes that in order for BYTEDANCE to use the Images for training Seedream, it was necessary that BYTEDANCE repeatedly reproduce images on its own storage media.

82. Third, EVOX is informed and believes that Seedream is built upon and integrates a highly compressed, mathematical copy of the EVOX Images and other copyrighted materials that were used to train it. Accordingly, Seedream is itself an unauthorized derivative work that was developed through the unauthorized use of EVOX Images.

83. Fourth, the vehicle images generated by Seedream (e.g., the "outputs") are either so substantially similar that they constitute reproductions of EVOX Images, or they are unauthorized derivative works, in that they appropriate myriad elements of protectible creative expression and other elements from the EVOX Images that were used to train the Seedream platform.

84. EVOX is informed and believes that BYTEDANCE specifically

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

exploited EVOX Images because they represent the highest quality examples of vehicle photography in the industry.

85. EVOX is further informed and believes that BYTEDANCE intended to train its model to recreate and integrate the protectable expressive elements that make EVOX Images unique.

86. Accordingly, potential licensees of EVOX recognize that the images generated by Seedream can now be used as a substitute for EVOX Images, because they successfully replicate the multiple creative decisions used to develop EVOX's library of Images.

87. BYTEDANCE has therefore infringed EVOX's copyrights by wrongfully appropriating EVOX Images without license or authorization, and exploiting them to develop its commercial business.

88. Moreover, BYTEDANCE's conduct was willful, in that it reflected a knowing disregard of EVOX's copyrights in a purposeful effort to develop a program that is designed to render EVOX's licensing business obsolete.

89. EVOX has been damaged by BYTEDANCE's infringement in an amount to be determined.

COUNT TWO

(Contributory Copyright Infringement - 17 U.S.C. § 501, *et seq*.)

90. EVOX re-alleges the allegations in the preceding paragraphs as though fully set forth herein.

91. To the extent that BYTEDANCE claims that users of the Seedream image generator are responsible for infringing EVOX Images, BYTEDANCE is liable for contributory copyright infringement.

92. BYTEDANCE knew, or should have known, that users of the Seedream image generator would use it to generate copies and derivates of EVOX Images. Indeed, EVOX is informed and believes that BYTEDANCE used EVOX Images to train Seedream specifically for this purpose.

CALLAHAN & BLAINE, PC
A PROFESSIONAL CORPORATION
ATTORNEYS AT LAW
19900 MACARTHUR BLVD., SUITE 1200
IRVINE, CALIFORNIA 92612
TELEPHONE: (714) 241-4444
FAX: (714) 241-4445

93. Thus, BYTEDANCE's conduct in developing Seedream with EVOX Images either induced infringement by others, or materially contributed to it.

94. Moreover, as the creator and operator of Seedream, BYTEDANCE has the ability to prevent users from copying EVOX Images, or generating works that are derivative of EVOX Images.

95. EVOX is informed and believes that BYTEDANCE has made a conscious decision not to prohibit, discourage, or even impede infringement by others. This is because BYTEDANCE generates revenue by offering Seedream subscriptions to users who wish to replicate EVOX Images.

96. EVOX has been damaged by BYTEDANCE's contributory infringement in an amount to be determined.

PRAYER FOR RELIEF

WHEREAS, EVOX prays for relief as follows:

1. For maximum statutory damage with respect to each copyrighted work infringed, or such other amounts as may be proper pursuant to 17 U.S.C. § 504(c). Alternatively, EVOX, at its election, is entitled to damages and/or wrongful profits pursuant to 17 U.S.C. § 504(b) for each separate infringement.

2. For pre-judgment and post-judgment interest.

3. For EVOX's costs in this action, including reasonable attorney's fees, pursuant to 17 U.S.C. § 505.

4. For such other and further relief as is just and proper.
